TO: Minerals File

FROM: Tony Gallegos, Reclamation Engineer *aa*

RE: Site Inspection, Western Industrial Minerals, Moon #4 Mine, S/037/079, San Juan County, Utah

Date of Inspection: May 13, 1996
Time of Inspection: 1710 - 1805
Conditions: Hot windy, partly cloudy
Participants: Tony Gallegos, DOGM

The project area described in the notice (NE 1/4 NE1/4 sec 24, T41S, R19E) was examined. There were no disturbances found in the general vicinity. There were no mining related disturbances at the site, only what was designated as the "Existing Trail Road" on the map filed with the notice. The BLM has closed this file out. Since there are no disturbances here to be reclaimed, the Division will take measures to close our our file out as well. We will need to review the last annual report sent to the Division and send a letter to the operator.

cc: Lee Sutherland, Western Industrial Minerals
